FAQ.

Frequently Asked Questions

Are prices in Canadian dollars?

Yes, all prices are calculated in Canadian dollars. They are based on the exchange rate as of the brochure's edition date and are subject to change without notice.

Are all prices per person?

Yes, all prices are calculated per person. Please note that for some excursions, such as buggies or ATVs, there are both single and double pricing options. Single pricing applies to one person driving by themselves and double pricing applies to two people sharing one vehicle.

What's the main advantage of buying on board?

When you buy on board, you can save on your excursion and receive up to an additional 10% off the purchase of a second excursion in destination (5% off for excursions in select destinations). If you find the same excursion at a lower price in destination, you'll receive a cash refund in USD dollars to match the lower price. You can also avoid currency exchange fees and commissions for international transactions.

Can I still book an excursion on board if my hotel is not listed in the brochure?

If your hotel isn't listed, please contact your Sunwing Vacations representative (supported by NexusTours.com) upon arriving in destination to check availability for your selected excursion and hotel.

Can I book an excursion on board if I did not purchase a package through Sunwing Vacations?

At this time, excursions are only available for on board purchase to customers that have purchased a vacation package through Sunwing Vacations. They are not applicable to those who only booked a flight.

What happens if I lose my ticket?

It is very important to save your ticket; if you lose it, contact a Sunwing Vacations representative (supported by NexusTours.com) and wait for the excursions team to corroborate the purchase and payment made on board. Sometimes this confirmation can take more than two days. It is a good idea to take a picture of your ticket when you receive it in case it is misplaced.

What happens if the excursion I booked is cancelled due to weather conditions?

You can choose between rescheduling, changing the excursion or requesting a refund.

What happens if I want to change my excursion date while in destination due to weather conditions?

As you browse through our selection of excursions, you will notice that select ones have a Sunshine Guarantee icon. That means that if you are unable to take part in the excursion you've booked through us on account of inclement weather, you may reschedule it for another day during your vacation at no extra cost (based on the excursion's days of operation). Inclement weather is classified as rainy and/or overcast days, or days where it's extremely windy to the point that it could have an impact on your experience (especially on boat and catamaran excursions). If you feel that the weather conditions could prevent you from having a great day, feel free to contact your Sunwing Vacations representative (supported by NexusTours.com) for assistance. In all instances, NexusTours.com has the final say on what constitutes as inclement weather.

Do I have to provide a driver's license? Are vehicles manual or automatic?

Driver's licenses are mandatory for ATVs, buggies and any other excursion that involves driving a vehicle. Most vehicles are manual, except for those excursions that indicate otherwise in the brochure; in all other cases, it depends directly on the excursion's operators.

Can I cancel my purchase?

On board purchases are non-refundable, except in cases of force majeure, sickness with previous notification to Sunwing, or in those cases where the excursion cannot be performed for reasons beyond the customer's control.

How long is a full-day vs. a half-day excursion?

Full-day excursions have an average duration of eight hours or more and half-day excursions have an average duration of four to six hours.

What happens if I want to change my excursion for another one while in destination?

You can always upgrade or change your excursion in destination to any other excursion you like, as long as it is at the same or higher price.

What happens if I want to change or cancel my excursion date while in destination?

As you browse through the selection of excursions available, you will notice that select ones have a Flexible Cancellation icon. That means you can cancel or modify your booking up to 24 hours before the day of the excursion (before 7 p.m.) in destination.

Is there assistance for people with restricted mobility on excursions?

Assistance depends on the tour supplier. Most of the time, tour operators can assist passengers with getting in and out of transportation, but special equipment (including ramps or lifts) is not guaranteed. Contact your Sunwing Vacations representative (supported by NexusTours.com) for more details.

Do I have to bring my passport on the excursion?

Your passport is not necessary unless your excursion includes a visit to another nearby country; however, an official ID is required for those excursions where alcohol is served, in order to prove you are of legal drinking age.
